

Con Kerr Cancer Pillowcases Using CPM Kit

Step 1 - Fold lengthwise accent trim wrong sides together and press. Pin to body of pillowcase and baste.

Step 2- Carefully pin cuff on top of accent trim and body of case, right sides together. Stitch scant 1/4" seam

Step 3 - Carefully fold body of case accordion style. Pin the cuff around the folded body. Pin the five layers of fabric together. Be careful not to get the body of the case caught in the seam. You will now have something that looks like a long Hot Dog!! Carefully stitch all five layers together.

Step 4 - Pull the body from the inside the "Hot Dog" and with WRONG sides together stitch along the side and bottom of the case.

Step 5 - Press seams and turn case inside so right sides are together. Pin and stitch.

Step 6 - Wash and press pillowcase.

HINTS

Step 1 and 2 may be done as one step with careful pinning.

Steps 1-3 may be done in a single step with careful pinning and stitching

You may choose to serge finished seams eliminating the need to stitch side seam and bottom twice.

If you google "hot dog approach to sewing pillowcases" you will find pictures of the steps.

You can also google "Missouri Star Quilt Company tutorials pillowcases" for an excellent demonstration.
